REMARKS.—The market has improved during the week, and at the close there was considerable activity. The receipts of Wheat have increased, though as compared with the same time in previous years, the falling off is considerable. The high price paid at the opening of the market by Richmond, induced many farmers who had here before sent their Wheat here, to ship to that city; the effect of which was sensibly felt in this market. There is now in Richmond no market for inferior qualities of Wheat, and prices there for prime have declined. Those causes have again attracted the farmers to this market, and this week the receipts show a considerable increase over those of last week. Flour has been coming in slowly, and the market has been rather quiet.—Prices have ruled steady, viz: \$5 for Superfine, \$5.50 for Extra, and \$7.00 for \$7.50 for Family, according to brand. The stocks on hand are small, but sufficient to meet the demand. The principal sales have been to the city trade. About 20,000 bushels of Wheat have been disposed of this week. Prices have steadily advanced, and the market closed yesterday firm, with sales of fair to good wheat at 115c to 120c, and good to prime at 122c to 126c; red 119c to 122c, for good, and 114c, for prime. There was much activity manifested on Change, buyers bidding freely. Corn is in very fair request, with light receipts. Nearly all brought to market is coming via the River. We quote prices steady at 78c, for white and yellow. Oats quiet, with light receipts. Small sales at 65c. Oats scarce, with sales at 35c, for bright. Seeds are quiet. The receipts of Timothy have been fair, and the market quiet. We quote \$22 @ \$24. The market for all kinds of goods in the grocery line is very quiet. Coffees are stiff and sluggish. Sugar and Molasses, prices nominal.—After this week we hope to be able to give more extended reports. Our merchants will soon begin to receive their supplies, and trade start up from its too sluggish inactivity. Guano and other fertilizers continue in active demand, but we have no change to note in quotations. Plaster is in good demand, and fair supply. Provisions are quiet. Butter is plentiful. Eggs in abundance. Lard is scarce. Wood is quiet. We hear of no sales of our qualities—unwashed common 23c to 25c; washed do. 32c to 35c. Freight is active, and rates as follows:

Richmond Market, August 26.

WHEAT is still arriving freely—indeed, in greater quantities than our millers can purchase, and as the season advances, it will not justify shipments, they take it at their own price; though we accord to our millers as much kindly feeling as regards the price as can be found in any other city, yet it cannot be expected that they (the millers) will, at their own expense, enrich farmers. We quote: prime 120c to 122c, extra 122c, and 130c to 135c; 137c to 140c has been got for a few extra fine samples. There being no shipping demand, and with the price of wheat low, flour is depressed, and the receipts are slow. We quote as before: old superfine \$5.00, extra \$5.50, No. 1 \$6.00, extra \$6.50 to \$7.00; Family \$8.50 to \$9.

The Markets.

BALTIMORE, August 26.—Flour closed steady; toward street and Ohio \$3.12; City Mills \$5.—Wheat closed quiet; sales of 10,000 bushels; white @ 132c; red @ 110c @ 115c. Corn closed 26; white, yellow & S. 85c; white 80c @ 82c. Provisions closed firm; bacon sides 8½; mess pork \$14.75 @ 15; prime \$13. Lard quiet at 11¼ @ 11½. Whiskey closed steady at 28½.

New York, August 26.—Flour is buoyant; rate \$4.50 @ \$4.60; Ohio \$5.20 @ \$5.65; Southern 25 @ \$5.50. Wheat has advanced 2¢ quotations unsettled. Corn is flat; yellow 82½ @ 83½; mixed 82½. Provisions dull; mess pork \$14.25 @ 14.37½; prime \$10.12½. Lard quiet at 10 @ 10 1/16. Whiskey flat at 27c. Stocks dull and lower; Mo. s. 82½. Cumberland Coal Co. 15.

New York Cattle Market, August 25.

BEEF CATTLE.—The market has rather improved and the supply is 716 head smaller, the quality much better. We quote the advance at a quarter of half a cent per pound, with also an advantage to the seller's favor in having a full allowance of weight. The entire lot of Steine have found buyers. Pork butchers at full prices. The low grades of Cattle here were no better, the improvement being on the fair and best qualities. We quote at 6 1/16, very few only at 10½, and but few at 6 1/16, average 9c @ 10c.

PORK AND LAMBS.—The business has been lively for good quality, at full rates. Poor Sheep are difficult to sell. We quote at \$22 @ \$6.30.

SWINE.—The market has advanced a full 1/16, account per lb., and most of Steine have found buyers. The entire corn-fed Western at 5½ @ 6c, gross. The receipts at Western yards were 1,334 cwt, about 1,000 by Hudson River yards—total 434. The sudden advance in mess and prime pork has operated favorably on the prices of Swine.

Coal Trade.

For the week ending Saturday, August 20th, 200,000 tons of coal were shipped over the Cumberland and Pennsylvania Railroad, and 3,456,140 over the road of the George's Creek Coal and Iron company. Making a total for the week from the two roads of 3,656,140 tons.

Total shipments for the year from the entire output, 335,918,035 tons.

Eighty-three boats cleared this port during the week ending Wednesday, the 24th instant, carrying 10,693,125 bushels of wheat.

During the season 1720 boats cleared this port, carrying 183,403,021 tons of Coal.—*Cumby, Cie.*

Baltimore Cattle Market, August 25.

BEEF CATTLE.—The offerings at the Seales to-day amounted to 800 head. Of the number offered 120 were driven to New York, and the remaining 680 were butchered by Baltimore butchers at prices ranging from \$3.25 to \$4.50 @ 100 lbs. gross, and averaging \$3.94. The market was brisk and advance to-day, and the above average shows an advance on the quotations of last week.

Hogs.—The supply has been fair this week, and equal to the demand; prices show no change; sales \$2.50 @ \$3.75 ½ head, as to quality.

Lambs.—The supply has increased, and prices are shade lower; sales at \$7.50 @ \$8.50 ½ @ 100 lbs., as to quality.

Richmond Cattle Market, August 26.

BEEF.—Sales the present week at \$5.00 @ \$9 ½ per net., according to quality.

VENISON.—There were sent to Richmond \$5 to \$10 ½ head, according to quality. Market dull.

LAMB.—The extreme prices are \$2 @ \$1 ¾ head, according to quality.

MUTTON.—We quote fair to good Mutton \$3 @ \$4 ½ head.

SHEEP.—We quote at \$5.50 @ \$9 ½ cwt., with a good stock in market. No Show in market.

The season for auction sales of dry goods was inaugurated in York on Wednesday, with much spirit. There were more than five hundred. At one of over 15,000 shawls were offered and good quantities obtained for the best. At another, 2,000 pieces of rich dress silks and 800 robes were offered. The bidding was spirited, and the sales made remunerating figures. At a third, a large importation of carpets brought improved prices.

The New Orleans Crescent says, regarding Sugar, we talk it, that the same season, or rather the same kind of weather from this time until November. These men last year, a crop of 410,000 hogsheads is confidently expected. We agree in the expectations, and with a very late season 414,000 hogsheads may be expected.

FANQUIER ITEMS.—The Fanquier White Sulphur Springs estate was sold on Wednesday last. Seven hundred acres of land attached to the property were sold to Col. Wm. J. Green, for \$21 per acre. The remaining portion of 410 acres and the buildings included, were sold to Mr. Huggin, of Caroline County, for \$32,000. We hear that an effort will be made to set the sale aside at the next term of the Circuit Court.

We are sorry indeed that the Springs have not received the patronage this season they so richly deserved. Messrs. Smith & Lusk, the enterprising and accommodating managers, did hope for a liberal patronage, but unfortunately have been disappointed. The Springs, having recently passed into other hands, we trust sincerely that hereafter they will be encouraged far beyond the most sanguine expectations of their friends.

The Deputy Sheriffs will go from Court with the tax books for their respective districts. We learn by enquiry from the Sheriffs, that the amount to be collected from the taxpayers of this County, for the State and other purposes, during the fall months, near seventy-four thousand dollars, a pretty sum for the times, but as our taxpayers know the penalty the officers incur for a failure to collect in time, we are sure their demands will be promptly met.

We had a most delightful rain on Tuesday and Wednesday, which will materially improve the corn crop in this neighborhood.

In some portions of the upper end of this county, notwithstanding the want of rain, the corn crop will be more than an average one. Better, we regret to say is very scarce in the market, the supply falling far below the demand.

The oat crop in Fanquier, is a very heavy one. —*Warrenton Whig.*

CORN CROP.—A recent trip down the Valley as far as Mt. Jackson, has satisfied us that the crop of corn in the lower end of Rockingham and the upper part of Shenandoah, must be exceedingly short. We do not think that half a crop can be made under any circumstances. It is distressing to see the stunted, wilted, withering, dying condition of this up-plant crop. It may be that the fields cut immediately on the line of the turnpike, look better than those we saw; but we cannot believe the interior fields promise a larger yield than those to which we refer. On the rich bottoms of the celebrated Steenberg estate, now owned by Messrs. Meen, the crop meets the shortest corn we ever saw growing in that locality. The proprietors of the estate informed us that they did not expect to realize one third of a crop from their extensive field of corn. —*Rockingham Register.*

—

FINE YIELD.—The most extraordinary yield of rye we have ever heard of, is that spoken of below. It was raised on the farm of Maj. J. H. Conrad, near Conrad's Store. The land in this region is remarkable for its fertility, but this yield is indeed extraordinary, even for that rich country.

"CONRAD'S STORE, 1859.—As fall talk out last timothy seems to be the order of the day, I concluded to say something in the way of rye. I threshed a few days since, the product of the seeding of half a bushel of common mountain rye, the yield of which was fifty bushels of clean pure rye. The growth being very luxuriant, it was very much fallen, which made it very difficult to thresh. I have no doubt at least ten bushels as much on the lot. Beat it who can." —*Rockingham Register.*

—

GOV. LETCHER.—We left Gov. Letcher at Turkey Springs a few days since, enjoying himself finely, and improving, we think, rapidly in health. We have hopes that his health will be entirely restored before he assumes the duties of the Executive chair. — is republican manners and unpretending character have endeared him to the people who will upon him to pay their respects to their former faithful representative in Congress, at the next General election of the old Commonwealth. —*Rockingham Register.*

—

A NEW LINE OF STEAMERS.—We have learned, from an authentic source, that a new line of steamers, three in number, will soon begin to run, in competition with the present line, between New York and this city. They will, it is said, rival the others in size, speed, and elegance of accommodations, and so of them are now upon the eve of being launched. Six fine steamers from this city to New York, will do very well for Richmond. —*Richmond News.*

The Winchester Republican says:—"A few evenings ago two men apparently rough customers, were sharp enough to swindle our merchants out of a right snug little sum, by way of an exchange of bank bills for the genuine article. LOCAL ITEMS.

STEAM PACKET LINES.—The commencement of the new line of steamers between New York, and Alexandria and the District of Columbia, reminds us that we have now regular lines of steam vessels between this port and Baltimore, Philadelphia, and New York.—In case of emergency, celerity and cheapness of freight can now be brought here, and transported hence to the principal cities at the North, should attract the attention of business men generally, at home and abroad. Capital can here be employed to great advantage, under the improvements which have taken place, and the facilities for obtaining supplies of flour, grain and other produce from the richest and most fertile portions of Virginia and Maryland. The long stretch of Railroad into the Valley of Virginia, and away off, even to Memphis, should open up a trade such as we have never had before. Alexandria ought to be the market and depot for a great trade. The city on the sea board has greater, few, and local advantages, for the prosecution of business.

MALE FREE SCHOOL, WASHINGTON STREET.—**MR. SAMUEL T. BEACH, PRINCIPAL.**—At the meeting of the Board of Guardians, held July 25th, 1859, Mr. Beach, who conducted the exercises of the school during the previous year with great ability and signal success, was unanimously re-elected to the position of Principal. A few remarks may not be inappropriate concerning the operations of this institution, in which many who are now contributing to its support received a part or the whole of their school education. The plan adopted by the Board at the beginning of the last session, was to receive such boys as could read, and to retain them only so long as they should attend punctually and regularly.

By this arrangement several important results bearing upon the future success of the school, have been secured. In the first place, the attendance has greatly improved, the percentage of absence and tardiness having been materially diminished; a better classification of the pupils has been secured, thus enabling the teacher to instruct a larger number with greater facility and profit; by including those scholars who could be better instructed in the Primary Schools, the time the teacher has been devoted to those, who have in most instances but a limited period of time in which to attend; and a higher grade of scholarship established, which will be from time to time extended as circumstances require.

The last session of the school closed on Friday, July 8th, with 44 pupils, all of whom read; 36 spelled and defined; 42 wrote; 17 studied Geography; 12, English Grammar; 36 Arithmetic; 1 Algebra; 1 Mensuration.

The department and general progress of the pupils, were such as to gratify the members of the Board in their visits to the school room.

The aggregate and average attendance during February last, 1859, when the last report was published, was for February, 65—March, 68—56; April, 59—52; May, 54—48; June, 52—43; July, 45—41. In the latter part of the year, some of the older boys were withdrawn to be placed at trades.

The opening of the school, which will be deferred a few days from Monday 29th inst. (time appointed, on account of the sickness of the teacher, will be duly announced.

THE NEW YORK STEAMSHIPS.—The Mount Vernon, a splendid, first class ship, handsomely fitted up for the accommodation of passengers, is, according to advertisement, to leave New York, for this city, on Saturday next. She will soon be followed (as we before stated,) by the Monticello, a vessel similar in all respects to the Mount Vernon, and now nearly completed. The New York route to Richmond and Norfolk has been eminently successful, and with the expected increase of trade with the Southwest, this line will, also, no doubt, prove profitable. As a specimen of these steamers will be delightful, and as the fare is low, many will no doubt avail themselves of this new route to visit New York, and other Eastern cities. A spacious depot building is in course of erection, on the company's lot in this city. The dock has been cleaned out, and everything will be ready to open a brisk trade.

THE SANDY SPRING neighborhood, in Montgomery county, Maryland, is already famed for the intelligence, enterprise, and industry of the inhabitants, its fine farms, and its excellent schools. There is not a more fertile and healthy portion of country anywhere to be found. It is a pleasure, indeed, to visit the people there, kind, hospitable, and worthy as they are. As an evidence of their taste and refinement, and of their efforts for scientific and literary improvement, it may be mentioned that they have lately erected a neat Lyceum building, at a cost of \$1,000, in which they have Lectures delivered, and which Lectures are attended by such audiences, as must be gratifying to the Lecturers who appear before them.

MAGAZINES.—We have received from Mr. George E. French, Harper's Magazine for September.

We have received from Mr. Geo. Siggers, the Great Republic Magazine.

Both of these Magazines have a number of interesting articles, and are handsomely illustrated with engravings.

THE COONS STILL LIVE.—We saw yesterday, at the office of the Adams Express Company, two live Coons caught in Warren County, and sold at Happy Creek, to a gentleman in Richmond, to which place they were to be sent. Neither of them are thought to be "that same old Coon," but they are doubtless genuine descendants.

THE LATE RAINS.—We hear from the upland and lower counties that the recent rains descended in every direction, and did much good, although they came too late for the early corn.

THE CAMP MEETING, in Fairfax county, commenced yesterday. It has been attended by a large number of persons—and with the exception of one occurrence, (already noticed,) good order has prevailed.

PAVING.—Eight bids for reg-
ing and paving a portion of 20th street,
New York, with trap block or Belgian pave-
ment, were opened at the Croton Aqueduct
on Tuesday, and the work was
let to James Cunningham at the rate
of \$1.78 per superficial yard; and thirteen
bids for putting in a new gutter
for the same length of laying the gutter
were also received. This pavement is put down in a bed
and afterwards filled up from the surface,
when thoroughly imbedded, it furnishes
are foothold for beasts. A specimen of it
be seen on Pennsylvania avenue, Wash-
ington, where it is intersected by 7th street.

himself personally to the instruction and govern-
ment of the scholars, who are admitted in the
various departments, by a corps of experienced
teachers, most of whom board in the family, and
their entire time and attention to the School,
it would be easy to insert the names of many
known gentlemen, residing in the city, who either
have been or now are, patrons of the School, but
Principal desires this unnecessary.
